

### **Appendix D - Arista's Trial Exhibit List**

Inclusion of a document on this exhibit list is not an admission that the document is relevant or admissible for all purposes, or under any circumstance. Arista reserves the right to object to Cisco's use of any document listed herein to the extent it violates any Rule of Evidence.

Arista reserves the right to offer at trial any exhibit listed on Cisco's exhibit list.

Arista reserves the right to print in paper format any document that is listed as a native or physical exhibit on the exhibit list. Arista reserves the right to use metadata from documents on the exhibit list. Physical exhibits will be available for Cisco's inspection.

Arista reserves the right to amend the exhibit list: discovery is ongoing pursuant to the Order Denying Arista's Motion for Relief from Nondispositive Order of Magistrate Judge (Dkt. 481) and Arista may need to provide a supplemental exhibit list based on that discovery. Further, Arista may need to respond to documents on Cisco's exhibit list. Arista reserves the right to amend its list to include summary, demonstrative, impeachment, and rebuttal exhibits.

The purposes and witnesses in the Purpose for Which Exhibit Offered and Sponsoring Witness column are preliminary and not exhaustive. Arista further reserves the right to add witnesses to the exhibit list to the extent those witnesses are listed in the parties' exchanged witness lists or disclosed in ongoing discovery. Arista reserves the right to use any exhibit on the parties' list during the examination of any Cisco-designated expert.

Arista has provided dates in its exhibit list solely for purposes of identifying duplicates in Cisco's list. A date listed is not an admission that the document has a specific date.

### **Preamble to Arista's Amended Objections to Cisco's Exhibits and General Objections**

Pursuant to Fed. R. Civ. Proc. 26(a)(3)(B), Arista reserves the right to assert objections to any exhibit under Federal Rule of Evidence 402 and 403 based upon the issues presented at trial, the evidence to date, the purpose for which Cisco offers the exhibit, and in light of any pre-trial or mid-trial rulings.

Arista objects to all Cisco's exhibits that are precluded by a motion *in limine* or Daubert motion. Arista also reserves the right to object to any exhibit and testimony under Federal Rule of Evidence 702 and 703.

For all discovery and deposition notices or subpoenas on Cisco's list, Arista incorporates by references all objections made in Arista's responses to such discovery, deposition notices, and subpoenas.

Arista objects to the extent that Bates numbers or descriptions have been modified in corrected Cisco exhibit lists but not specifically identified to Arista; Arista further preserves all objections to these exhibits. The parties have not exchanged final exhibits. Arista reserves the right to clarify or update objections after the parties have exchanged trial exhibits. To the extent Cisco has duplicates on its list, Arista reserves the right to assert objections specifically

identified for all similar duplicates.

Arista provides the below key for the codes used in its specific objections to each exhibit.
